

Cyber Essentials

Start your certification today
using our online platform

 APMG International

Demonstrate your IT systems are secure

Cyber Essentials is a government backed scheme to help organizations get a clear picture of how they can protect their business from common cyber threats. It also allows organizations to demonstrate to customers that they have taken essential precautions, through obtaining the Cyber Essentials badge.

Same day certification

Cyber Essentials is the standard level and is awarded after completion of a verified self-assessment via APMG's online platform. Certificates have been issued in as little as two hours.

Cyber Essentials Plus is a thorough assessment which includes vulnerability and penetration testing.

Standard certification is simple and easy with APMG, just log in to www.apmg-cyber.com and complete your assessment from start to finish.

The benefits of Cyber Essentials

- A cost-effective process to check your business has taken basic cyber security precautions.
- Reduce the risk to your business from common cyber threats by ensuring good cyber practice.
- Differentiate your business from your competitors by demonstrating that you take cyber security seriously.
- Meet the conditions of contracts and procurements that request Cyber Essentials as a mandatory requirement.

"I found the APMG online certification platform – simple, secure and straightforward"

Joseph Borg, Systems Administrator, ICON

Our unique Cyber Essentials platform will enable you to:

- Complete your application at your own pace.
- Only pay when you are ready to submit your application.
- Share your application with your team so they can contribute their expertise.
- Upload evidence to our encrypted database to support your application.
- Instantly receive your certificate.
